

EduLearn

Online Course Enrollment Platform (Prototype)

ACADEMIC PROJECT

6-MEMBER TEAM

INTRODUCTION

Empowering Students Through Online Education

What is EduLearn?

A web-based prototype designed to simplify how students discover and enroll in professional development courses

Focus areas:

- Intuitive user interface design
- Smart course categorization
- Streamlined enrollment flow

Why It Matters Today

Online learning has transformed education:

- Accessible education anytime, anywhere
- Professional skill development at your pace
- Growing demand for flexible learning solutions
- Bridge between academic and career skills

The Problem We're Solving

Fragmented Course Discovery

Students struggle to find structured professional courses across multiple scattered platforms

Complex Enrollment Processes

Existing platforms often have confusing navigation and overwhelming interfaces

Lack of Clear Organization

Courses aren't categorized effectively, making it hard to find relevant learning paths

"Students need a simple, centralized platform that makes course discovery and enrollment effortless"

Project Objectives

01

Design Excellence

Create a responsive and intuitive course enrollment website with modern UI/UX principles

02

Clear Navigation

Showcase course categories and enrollment options through logical, user-friendly pathways

03

Proof of Concept

Demonstrate core functionality as a working prototype ready for future development

What EduLearn Offers

Engaging Home Page

Clear call-to-action buttons and intuitive design that welcomes users and guides them to courses

Detailed Course Listings

Each course shows level, duration, instructor info, and transparent pricing

Organized Categories

Five main areas: Technology, Business, Design, Marketing, and Languages

Enroll Now Function

Prototype-level enrollment system demonstrating the user journey from discovery to action

User Interface Design Philosophy

Clean & Modern

Minimalist aesthetic that puts content first

Easy Navigation

Home • Courses • About • Contact

Mobile-Friendly

Fully responsive across all devices

- ❑ **Design Priority:** User experience drives every interface decision

Our design ensures students can navigate effortlessly whether they're on desktop, tablet, or smartphone

TECH STACK

Technologies Powering EduLearn

Frontend Development

HTML, CSS, JavaScript for core functionality

Design & Prototyping

Lovable AI for rapid design iteration

Deployment

Prototype hosting environment

Platform Screenshots

Visual walkthrough of the EduLearn user experience

The screenshots illustrate the user interface of the EduLearn platform across four main sections:

- Homepage:** Features a large blue header with the text "Unlock Your Potential with Professional Learning". It highlights "200+" courses and "50+" categories. Navigation links include Home, Courses, About Us, and Contact.
- Explore Our Course Categories:** A grid of course categories: Business (38+ Courses), Design (32+ Courses), Professional Development, and Languages.
- Ready to Start Your Learning Journey?**: A call-to-action page with a "Register Now" button. It includes a "Quick Links" sidebar with Home, Categories, and Technology.
- Courses List:** A grid of course cards. Examples include "Python for Data Science" (\$399, Intermediate, Beginner) and "Business Leadership & Management" (\$349, Intermediate). Each card shows a thumbnail, title, description, instructor (e.g., Prof. Michael Roberts), duration (e.g., 10 weeks), and level (e.g., Beginner).

Current Limitations & Future Vision

Present Constraints

- **Backend Integration**

Database not fully connected yet

- **Static Content**

Courses currently hard-coded

- **Missing Features**

No video content or payment gateway in this prototype phase

Future Enhancements

- **Dynamic Data**

Full database integration for real-time course management

- **User Authentication**

Secure login and personalized dashboards

- **Rich Content**

Video-based courses with interactive elements

- **Payment System**

Integrated payment gateway and enrollment confirmation

Thank You
